DETAILED ACTION

Claims 1-24 are pending.

Raw Sequence Listing have been entered.

Submitted Information Disclosure Statement (I.D.S) is noted.

Response to Amendment

The receipt of preliminary amendment of 10/21/2004 is acknowledged. Claim 24 has been added. Claims 1-24 are pending.

Claim Rejections - 35 USC § 112

Claim 20 provides for the use of a non immunosuppressive mutated E7 protein, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 20 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Objections

Claim 24 is objected to because of the following informalities: recitation of "Papillovirus" in line 2 is misspelled and incorrect. Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Art Unit: 1648

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 21-22 are rejected under 35 U.S.C. 101 because the claims as currently written encompass products of nature. The antibodies are in response to administered product in natural milieu of a suitable host.

Subject Matter Free of Prior art

Claims 1-24 are deemed free of prior art, given failure of the prior art to teach or reasonably suggest the SEQ ID NO: 3 mutant fragment. The closest art identified is by Bruck et al (WO 99/10375), but the now claimed invention is not taught.

Claims 1-19, and 23 are allowed.
